PREFACE

Furnished by the Chamber of Commerce

Population—U S Government Census estimate July 1, 1923, 13,166

Goldsboro is the capital of the County of Wayne, and if you traverse North Carolina from Cherokee to Currituck, you will find that no county in all the State was touched by nature with a more lavish hand. The citizens of this community are of the highest type in the whole nation. This town has sent forth statesmen who have wrestled expressions of admiration not only from the nation, but from strange tongues. It has reared and trained educators of national fame. It has developed business men who are as well known in New York, Boston and Philadelphia as they are in North Carolina. It has given to the State judges, whose opinions have been read and cited by the Chancellor of England.

The progressive citizenship of Goldsboro has forced her to the notice of the commercial world. We have taken on a new life, until to-day Goldsboro and Wayne County stand as the very synonyms of progress in the vocabulary of all North Carolinians. We are living in a great age which has properly been denominated as age of experience and advancement. The human mind seems to have burst its ancient limit in search of the means of progress. Our nation, whose motto was *simpliciter et vere*, is seeing a wave of money power driven by an impetus of commercialism, swept across it with a suddenness and immensity which takes the breath away from all the lookers-on in other countries. With the springing up of this new era, Goldsboro has changed to meet the new conditions, and she has been keeping pace in the forward movement, and its citizens have determined to become masters of the situation. The Goldsboro of to-day surpasses any city in North Carolina in proportion to its population.

It has fifty-five industrial plants with four thousand employees, who draw monthly one hundred and ninety thousand two hundred and eighty dollars.

There is invested in industrial enterprises about five million dollars, and the output from these plants amounts annually to about ten million dollars.

Goldsboro has five banks with resources of seven and one-half million dollars.

Goldsboro handles annually from twenty to thirty thousand bales of cotton and from three to ten million pounds of tobacco.

Goldsboro has thirteen miles of graded streets; twelve miles of paved streets and twenty-seven miles of granolithic sidewalks.

The assessed tax valuation of the property in Goldsboro is twenty million dollars.

The bonded debt of the City of Goldsboro is six hundred thousand dollars; and the value of the city's holding is seven hundred thousand dollars.

The City of Goldsboro has purchased thirty thousand dollars of its school bonds and eighteen thousand dollars of its funding bonds, and it has money left in the bank. It has loaned to citizens of

Goldsboro fifty-two thousand five hundred and seventeen dollars, secured by real estate, and has left in bank thirty-seven thousand six hundred and ninety-seven dollars for those who need it and can secure the loan.

Goldsboro has thirty passenger trains each day and has direct service from three trunk lines.

Goldsboro has three of the most complete and up-to-date hospitals in North Carolina, and one of them is owned and managed by the city and county.

This city is surrounded by a rich agricultural county, and the people are industrious, thrifty and honest, and it is the location and environment that furnishes the foundation for the greatest city in Eastern North Carolina.

Goldsboro, through its Chamber of Commerce and its natural advantages, has developed into one of the leading jobbing and manufacturing cities in the entire State. With its railroad facilities, it offers the mercantile trade throughout Eastern North Carolina unusual advantages in freight rates and quick deliveries.

The Chamber of Commerce, which is one of the strongest and most active organizations in North Carolina, maintains a Traffic Department with an experienced manager who devotes his entire time to developing transportation facilities.

Wayne County, of which Goldsboro is the county seat, is constructing a system of hard surface roads that when completed will surpass any county in the State. One million and a half dollars State road funds has been allotted to Wayne County and a county bond issue of two million is under consideration.

Goldsboro has nine modern public schools, a number of public parks and playgrounds, and its health and sanitary conditions are under the control of health and public welfare supervisors, with an adequate clerical force, who devote their entire time to our city and county's health problems. The Goldsboro Chamber of Commerce maintains statistics and facts up to date which cover in detail agricultural, industrial, commercial, civic and spiritual information pertaining to Goldsboro and Wayne County. This information is furnished to inquirers on request.

We have realized that true mastery is a compact of patriotism, enthusiasm, intelligence and unconquerable will, and that we cannot become masters of the situation by accident or indolence. We have learned that in building a city we are faced with a problem as important as the tariff or the railway question, and that it consists in making the city a humanized entity with purposes and plans, with foresight and dreams, with humanity and generosity, in abolishing poverty and the costs of poverty, in training the people properly, in raising their standards of living, of happiness and morals.

We are looking upon a city administration as a science. We have put our shoulders to the wheel to-day and we are pressing forward to accomplish the undertaking of making Goldsboro the biggest, best and richest city in Eastern North Carolina. To-day is the master of the situation; to-morrow is an imposter.

PUBLISHERS' NOTE.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. The publishers cannot, of course, guarantee the correctness of information furnished them nor the complete absence of mistakes, hence no responsibility for errors can be assumed, but we will welcome the bringing to our attention of any inaccuracies so that correction may be made in the next Directory.

HILL DIRECTORY CO., INC., Publishers.

INDEX TO ADVERTISEMENTS

Reference is especially invited to the following alphabetical list of responsible, enterprising, advertising business men. The more you patronize them the better we can make the Goldsboro Directory; your attention is also invited to the names in **DISPLAY BLACK TYPE** throughout the book of those who take pride in sustaining the city directory- and who do not borrow their neighbor's directory.

BANKS---BARBERS

What Does It Mean to You?

A bank connection should not be made lightly but should be given the most careful consideration. It may mean more to you in the future than you dream of now. It is a matter upon which may hang your success or failure.

A strong and helpful bank connection is the foundation upon which almost all business success has been built.

THINK THIS OVER CAREFULLY

Advertising Goldsboro

Do you know that a copy of this Directory of Goldsboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Goldsboro. Are you as prominently represented as you should be?

Why

Do 90% of the advertisers in this city catalog
renew their advertisements year after year?

Because

They believe in service and wish to make it easier
for the BUYER to find them.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

RATES UPON APPLICATION

H. J. Farnham, New Haven.
Llew. Williams, Jr., Cincinnati.
J. L. Hill, Jr., Richmond.

General Offices: 524-528 Broadway, Corner Spring St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First: The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second: To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third: To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth: For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this Association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories and reference media contain; to study public needs and make Directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the Directory and reference media be made to serve their fullest use as business and social reference books and Directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicly upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories and reference media in public service and then to strive in every legitimate way to promote that function.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.
